

# Fran Branković

## JUNIOR FULL-STACK JAVASCRIPT WEB DEVELOPER

---

### About me

100% self-taught.

I like to deeply understand how things work which helps me to solve problems, errors and create new solutions. I love constantly learning and my high discipline and motivation are my biggest strengths.

---

[YelpCamp](#) - js, mongo, mongoose, node, express

---

#### START-UP INTERNSHIP

[Vivada](#) - I'm working on landing page, implementing waitlist logic, SendGrid

---

### Education

#### UDEMY COURSE

I started with Udemy courses where I gained basic knowledge with learning theories, code along and doing some projects on my own.

#### BROWSING

After reaching some confidence I stopped with courses and started to do projects directly from my head and for all problems I ran into I used all kind of online resources such as, videos, stack overflow, discord communities and of course chat GPT

#### COLLABORATION

I joined Chingu community where I'm learning how to work in a pair or in a team
